

THE JAPS SEEM TO BE WINNING

Battles on the Sea Easily, But Losing Land Contests as Easily.

PORT ARTHUR BLOCKADE COMPLETE

Admiral Alexeff is Shut Up in His Stronghold--Fight Is Going on at the Yula River Again Today--Czar Is Broken Down.

London, Feb. 15.—The Paris correspondent of the Central News wires that news from a Russian source state that a battle between Russian and Japanese forces is at present being fought on the northern bank of the Yalu river where the Russian land forces have been concentrated. From a Japanese source the Central News also learns that another Russian cruiser has been sunk at Port Arthur.

From Tokio Feb. 15.—A report is current that the Russian Vladivostok fleet of torpedo boats has been sunk near Haidodo. This has not been confirmed. The shortage of transports is the chief cause for the non-shipment of the Japanese land forces at the present time. The Korean minister of finance, a strong Russian ally, Yi Yung Ik, has been arrested at Seoul.

Release Steamer
Chefoo, Feb. 15.—The American steamer Pleiad, detained by the Russians in Port Arthur, has arrived here. The captain says the losses in the attack of the Japanese amounted to twenty-nine Russians killed and sixty injured. The Japanese are still blockading Port Arthur. A party of Belgian engineers who were recently in Manchuria say the Port Arthur defenses are weak on the land side, while long stretches of the Manchurian railroad are without any defense at all.

A RUSSIAN STATESMAN.
M. de Plehve, Russia's minister of the interior, is the most unpopular man in his country. He has an iron will, is

a strong anti-Semite and was accused of having inspired the massacre of Jews at Kishineff.

No Request
London, Feb. 15.—In the house of commons this morning the home secretary, Douglas, stated that the government had received no request from Russia relative to the passage of warships through the Dardanelles and he had no reason to believe that they contemplated asking for any such violation of treaty rights.

Czar Stunned
Berlin, Feb. 15.—Reports from St. Petersburg state that the war disasters in the far east have prostrated the czar. He sits for hours gazing

SENATOR HANNA WAS JUST ALIVE THIS AFTERNOON

Late Reports Give No Hope for the Ohio Statesman Being Able To Survive His Illness.

(Special by Scripps-McLac.)
Washington, Feb. 15.—At 10 o'clock this morning Senator Hanna was barely alive. His present condition is the result of administration of stimulants. But for heroic measures the senator would be dead now, said Secretary Dover. Subcutaneous injections of brandy and strychnine are being constantly administered.

At Eleven
Senator Hanna is barely alive. While Dr. Oiler was compelled to return to Baltimore this morning his treatment will be carried out. During the morning members of the cabinet and a number of senators visited the hotel.

At Noon
Washington, 12 m.—Secretary Dover gives out the statement that Sen-

ator Hanna is still alive, but very weak and the end is only a question of time.

At One O'clock
At one o'clock the physicians said that Hanna might live for an hour and a half longer. Two more tanks of oxygen have been taken to the sick room.

In Congress
In both houses of congress this morning the opening prayers of the chaplains referred feelingly to Hanna's condition. "Come to the our sorrow over an afflicted one," prayed Chaplain Hale in the senate. "Come to those who are close to him, who are not to see his face or hear his voice." Nearly every senator, in his seat reflected the emotion of the chaplain.

A RUSSIAN STATESMAN.
Count Lamsdorff, Russia's minister of foreign affairs, is a veteran diplomat

COUNT LAMSDORFF.
and has been very conspicuous in the negotiations between his country and Japan.

RUSSIAN PRISONERS PAROLED
Will Not Be Permitted to Come North of Shanghai.

Tokio, Feb. 15.—The Japanese government has decided to accept the parole of France for the Russian prisoners captured at Chemulpo at the time of the sinking of the Varieg and the Korietz, provided they be sent to Shanghai. Russia engages not to let them come north of Shanghai until the end of the war. An exception is made in the case of twenty wounded aboard the French steamer Pascal. They will be taken to Chefoo and placed in a hospital.

REFUGEES REACH CHEFOO
Fall to Confirm Reported Land Fight at Dalny Tuesday.
Chefoo, Feb. 15.—The steamer Chefoo arrived here today from Port Arthur with a large number of refugees, consisting mostly of Chinese, but also a few Europeans. The reported land fight between Dalny and Port Arthur Tuesday morning is not confirmed by those who came from Port Arthur.

FEAR RUSSIAN RAIDERS
Japanese Merchant Vessels Driven From Their Water Way.

Yokohama, Feb. 15.—The four Russian cruisers which sunk the Zensho Maru had first appeared in the Tsugaru strait Feb. 11, escorting a transport from Vladivostok. Another steamer, the Nagasaka Maru, also met the Russian cruisers, but escaped from them.

All traffic between Hakodate and Aomori has been suspended owing to Russian raiders. Great indignation is felt here over the sinking of a commercial steamer, and it is believed that it is a violation of international law of warfare.

SCORES IN A TROLLEY WRECK
Two Killed and Twenty-Five Seriously Hurt at Cumberland, Md.
Cumberland, Md., Feb. 15.—Two persons were killed and about seventy-five injured, twenty-five of whom were seriously hurt, in a trolley car accident in Frostburg. The car ran away on a steep grade on Grant street, and upon reaching a sharp curve jumped the track and crashed into a telegraph pole. The car was smashed to splinters and scarcely one of the eighty passengers escaped injury of some sort.

THREE KILLED; FORTY INJURED
Brussels Has a Bad Railway Disaster Patterned After American Wrecks.

(Special by Scripps-McLac.)
Brussels, Feb. 15.—Three persons were killed and forty injured in a railroad collision near here this morning. The dead and injured were all school children coming from the suburbs to the city for school. An express train crashed into their train.

REPORT EMPEROR AS ILL AGAIN
Wall Street Has an Unofficial Rumor to This Effect This Morn.

(Special by Scripps-McLac.)
New York, Feb. 15.—Wall street has an unconfirmed rumor that Emperor William has suffered another severe attack and is very ill. The reports cannot be traced to any definite source.

3:30 p. m.—The above report is contradicted.

OHIO BANK HAS SO MUCH TROUBLE IT CLOSES ITS DOORS
The Gallion National Bank Closed Its Doors This Morning—Is About Even.

(Special by Scripps-McLac.)
Gallion, Ohio, Feb. 15.—The Gallion National bank closed its doors this morning. The resources and liabilities are each \$551,000.

PASSES STRAIT OF TSUGARU
Russia's Squadron From Vladivostok Disappears Amid Mystery.

London, Feb. 15.—Under date of Feb. 12 the Times' Tokio correspondent says that the Russian Vladivostok squadron, consisting of the cruisers Gromobol, Roudak, Hurik and Bogatyr, accompanied by a transport, passed Tsugaru strait Feb. 11, steering westward. The destination of the squadron was unknown.

FEAR RUSSIAN RAIDERS
Japanese Merchant Vessels Driven From Their Water Way.

Yokohama, Feb. 15.—The four Russian cruisers which sunk the Zensho Maru had first appeared in the Tsugaru strait Feb. 11, escorting a transport from Vladivostok. Another steamer, the Nagasaka Maru, also met the Russian cruisers, but escaped from them.

All traffic between Hakodate and Aomori has been suspended owing to Russian raiders. Great indignation is felt here over the sinking of a commercial steamer, and it is believed that it is a violation of international law of warfare.

Cumberland, Md., Feb. 15.—Two persons were killed and about seventy-five injured, twenty-five of whom were seriously hurt, in a trolley car accident in Frostburg. The car ran away on a steep grade on Grant street, and upon reaching a sharp curve jumped the track and crashed into a telegraph pole. The car was smashed to splinters and scarcely one of the eighty passengers escaped injury of some sort.

BAITMORE IS TO BE MODERN
MAYOR SELECTS AN ADVISORY BOARD TO PLAN CITY.

SUPERVISING CONSTRUCTION
Height and Character of the Buildings Will Come Under the Jurisdiction of the City Council.

Baltimore, Md., Feb. 15.—A thoroughly modern city will replace the district devastated by fire. The new buildings to be erected by merchants, bankers and others will be as thoroughly fireproof as modern ideas and skill can make them.

The emergency committee which the mayor has appointed as an advisory board to himself, though without legal power, will practically exercise a potent jurisdiction in regulating the height and character of buildings, the opening of new streets, the creation of small parks on ground heretofore occupied by houses, and in other matters related to the building of a thorough modern city. This committee will also decide on what streets rebuilding may begin at once, so that improvements may be put under way without delay.

Merchants Resume.
The majority of merchants who were burned out have found locations and have resumed business. Furniture dealers, jewelers, clothiers and others already have received new stocks, and every bank is doing business, although in restricted quarters.

Baltimore's greatest good fortune was in the exemption of its terminal facilities from the destroying blast.

Street Cars Running.
The restoration of almost the whole of the city's street car line service is one of the agreeable surprises. The success in this direction is due largely to the energy and skill of General Manager William A. House and President Hood, and they have been materially aided by the Baltimore & Ohio Railroad company, which generously offered all the surplus power from the tunnel power house.

Many Sunday Visitors.
Several hundred people came here from Philadelphia, Washington and other near-by points to view the ruins, though the crowd of sightseers was not nearly so large as was expected.

Very few visitors were allowed within the limits of the burned district, as dynamiters were at work demolishing standing walls regarded as a menace to life. Many walls were also pulled down with ropes and pulleys.

RUMORS ALARM TOKIO
Cruiser Squadron Scouting for Russian Fleet From Vladivostok.

Tokio, Feb. 15.—A variety of rumors stir Tokio. One says Matsumura has been bombarded, another that the Japanese cruisers have engaged the Russians. The government has not confirmed anything except the Zensho-Maru incident. It is doubted that Matsumura has been bombarded, as it is undefended.

It is regarded probable that the Russian fleet either returned to Vladivostok after completing a movement planned to divert the Japanese or else passed through the Tsugaru strait, moving south. The Japanese cruiser squadron is scouting in the hope of locating the Russian fleet.

CONGRESS HAS UNUSUAL SCENE
Democratic Congressman Gives Up His Seat Because He Knows of Fraud in Election.

(Special by Scripps-McLac.)
Washington, Feb. 15.—A most unusual scene was enacted in the house today when Shafer (democrat of Colorado), whose seat was being contested by Robert Boyne, said that inasmuch as it was impossible to separate the fraudulent from the non-fraudulent ballots in twenty-nine precincts involved he said it would be necessary to throw them out. Frauds which were not of his commission or to his advantage but with the majestics of those precincts he could not claim the seat. Therefore, he asked the house to unseat him immediately, wishing it and its members a happy and prosperous future. There was applause on both sides.

MORE DIPLOMACY FOR SECRETARY HAY
Japanese Minister Asks the United States to Talk to Russia About Japan's Subjects.

(Special by Scripps-McLac.)
Washington, Feb. 15.—The Japanese minister, Takahira, called at the state department today to request this government to interfere with Russia on behalf of the four hundred Japanese residents detained at Port Arthur by the Russians. This is taken to mean the Japanese contemplate

PREMIER KATSURA OF JAPAN.
Count Katsura is Japan's premier and minister of the interior. Soldier as well as statesman, he received his

military education at a German war college and is a field marshal in Japan's army.

a bombardment of the city and wishes to have their own people removed to safety. The department will make proper representation to Russia but little hopes of success are entertained. The department has not yet received a reply from Russia to Hay's note suggesting the neutrality of China and the limitation of the zone of war.

RUSSIANS REACH DALNY
Mail Steamer Safe That Was Reported Captured by Japs.

Shanghai, Feb. 15.—The Russian mail steamer Mongolia, which sailed from Shanghai, has arrived safely at Dalny.

London, Feb. 15.—A dispatch from Shanghai Feb. 9 said that it was credibly reported there that the Mongolia had been captured by the Japanese off the Shan-Tung peninsula.

RUSSIA WINS A LAND FIGHT

Japanese Sustain Heavy Loss in a Spirited Engagement with Russians, on Sunday.

STRATEGY IS RESORTED TO NOW

Heavy Force of Artillery--Infantry and Cossacks Attack the Japs, After They Had Been Permitted to Land.

(Special by Scripps-McLac.)
London, Feb. 15.—Japan's campaign to invest Port Arthur by land and sea began last Wednesday, and the first attempt has resulted in apparent defeat with heavy loss.

Japanese troops attempted to land at Tallenwan and Pigeon bay, on the east and west side of the Liaotung peninsula. These points are opposite each other on the narrow neck of land above Port Arthur.

If they are held the Japanese will have cut off Port Arthur from all the rest of Manchuria and Russia.

Lose 410 Out of 600.
The Daily Mail's Port Arthur correspondent, under date of Feb. 12, says:

"Official advices state that the Japanese landed 600 soldiers near Tallenwan with disastrous results; 410 being captured by Cossacks."

"The remainder escaped to their ships."

It is further stated that the Japanese landed at Dove bay (Pigeon bay), where thirty of them were killed and the remainder retreated.

A dispatch from Chefoo, dated Feb. 12, 12:35 p. m., eastern time, says:

Warships Too Far Away.
"During the second bombardment of Port Arthur last Tuesday, Feb. 9, while the Japanese fleet engaged the Russian ships, the Japanese partly landed four transports of soldiers, 5,500 in all, at Biduwoo. The Russians allowed them to land, then made a grand charge with artillery, infantry and cavalry, principally Cossacks, and almost annihilated the Japanese, who were unprepared for the attack, seeing no Russian defenses at the place of landing. The battleships which escorted the transports were too far away from shore to render assistance."

Landing Was Repulsed.
The Daily Mail's New Chwang correspondent, under date of Feb. 11, sends a corroboratory news of the Japanese defeat. He says:

"According to official Port Arthur telegrams the Japanese landed a force yesterday at Pigeon bay, west of Port

RUSSIAN FLEET ARRIVES AT MANILA BAY FOR COAL

Governor Wright Notifies the State Department, and Asks for Instructions About What To Do.

(Special by Scripps-McLac.)
Washington, Feb. 15.—The administration is somewhat puzzled over the report from Governor Wright that there were seven Russian warships in Manila bay Saturday. Secretary Taft received a cable message from Gov. Wright which read:

"Seven Russian warships in the harbor. Send instructions. Has United States declared neutrality?"

"WRIGHT."
Secretary Taft immediately took this message to the White House and a conference with the President and Secretary Hay followed. Secretary Hay was anxious that these warships should get away from Manila before their presence should generally be known, to prevent the danger of a naval battle in the region of the Philippines and possibly in waters under the jurisdiction of the United States.

Cables Proclamation.
The secretary was particularly anxious since his identical note to the powers, that the theater of war between Russia and Japan should not extend too near to the territory of the United States. It would have been embarrassing if not an absolute nullification of his note requesting the powers to use their good influence to restrict the theater of hostilities.

Secretary Taft cabled the full proclamation of neutrality to Governor Wright and also sent instructions to the effect that the Russian ships could be allowed to remain at Manila not more than twenty-four hours and to take on coal sufficient to carry them to the nearest home port, which would be Port Arthur, the probable destination of the fleet.

Declares Report Is Wrong.
Saturday night Secretary Taft received a second message from Gov. Wright saying: "Report of Russian warships in the harbor an error."

Just exactly what is the meaning of Governor Wright's two dispatches neither the secretary of war nor the President is able to say. They accept the second dispatch as meaning just

what it says, that the governor had been in error in his earlier report, and that he had possibly been misled by the numerous reports of naval movements by Russia and Japan which have emanated from nearly every cable station on the Asiatic coast.

Dispatches Mystify.
Secretary Taft said that he supposed Gov. Wright had received a report from Singapore or some other point to the south that the Russian ships had passed there on the way north and that they expected to coal at Manila. The secretary said it was possible that the governor had received some request or inquiry from the Russian admiral by cable, and that Saturday was the date when the fleet was expected. But the secretary could throw no new light on the situation and confessed that he had been somewhat mystified by Gov. Wright's contradictory dispatches.

Fleet Nears Manila.
There is a Russian fleet moving northward toward Port Arthur, and it is a very important one. This fleet, consisting of the battleships Oslavia, 12,674 tons; the armored cruiser Dimitri, Donskoi, 5,593 tons; the commerce destroyer Aurora, 6,630 tons, and ten torpedo boat destroyers, left Suva Jan. 21 and has not been reported as touching at any point in the Indian ocean or the straits; so that it is assumed that it is nearing the Philippines and will put into Manila for coal.

Will Extend Courtesies.
The administration expects Gov. Wright to show every courtesy to the Russian admiral consistent with the strict neutrality of this government. Should the Russian warships appear at Manila they will be allowed to remain twenty-four hours for any repairs necessary, and take on sufficient coal to carry them to Port Arthur. It is assumed that the Russians will not seek to embarrass this government by asking an extension of courtesies beyond that consistent with strict neutrality.

NEW SCHEME OF STOCKMEN

WANT TO LEASE PUBLIC DOMAIN FOR GRAZING PURPOSES.

IT WOULD HINDER SETTLING

Could Take the Pick of the Lands in the West for Nominal Rent, for Long Period of Years.

Washington, D. C., Feb. 13.—[Special.]—At the recent stock growers' conventions held in Portland most of the prominent stock men strongly advocated the establishment of some system for the leasing of the public grazing lands. It was not until there was something over half a billion acres of remaining public lands in the western grazing states and territories; that only a proportion of this can be irrigated by the government; that the remaining must forever remain arid and unimproved, and suitable only for grazing purposes and that therefore, to avoid conflict among stockmen and overgrazing and trampling to death, of the grasses, the land should be classified and the stockmen allowed to lease them from the government, incidentally providing a large annual income, which could be used for irrigation works.

Very interesting proposition appears a highly attractive one to the casual observer. Stockmen would without question gladly pay from one and one-half to two cents an acre annually for a five or ten year lease. Very possibly the government might obtain five or ten million dollars a year income from this land. It would undoubtedly be an excellent revenue provider.

But what would be the effect upon the country involved of leasing and fencing the public lands? Needless to say, stockmen would secure the very best of the land, claiming that when wanted, it could be irrigated, but that it should in the meantime yield the government a revenue effect the settlement and farming of the country? The stockmen are to prevent and discourage settlement on the public domain, which interferes with their large grazing operations. With a leasing title to the land, their power to prevent settlement would be infinitely increased, no matter what the terms or restrictions of the lease.

Powerful Wedge. With such a title in the hands of a powerful stock grower, or livestock corporation employing numbers of ranchmen and cowboys he would indeed be a hardy homesteader who would go within the cattleman's fenced domain and say: "Here, this is government land; I am going to settle here."

Once the stockmen secured a lease title to the land, there would be no settlement on that land. And who is going to classify this land, and say what is grazing land and what is agricultural land? "What man shall say," said Senator Gibson of Montana, in discussing the leasing question, "that this land is fit only for grazing? Land that is today arid and worthless will tomorrow be found to be available for the profitable growth of some crop. Vast acres in Montana, which ten years ago were grazed over and believed to be worthless for any other purpose, are now the homes of thousands of prosperous farmers. We do not want to make the mistake of shutting out settlement in this way, and no leasing law, care not what its provisions, could have any other result."

Just a Move. This movement of the big stockmen to secure the right to lease the government lands is looked upon as but another move in line with their operations to secure absolute title to vast tracts of the public domain for grazing purposes. Once such a lease law upon the statute books, and bringing in a revenue to the government, they figure that they could prevent its abrogation. Indeed, looked upon as one of the most dangerous propositions ever presented to Congress. The government must keep itself clear of such entanglements which cannot but operate against the small stockman, and the prospective settler and would unquestionably lead to much friction and trouble in the segregation of lands for government or private irrigation purposes. Best first step the land leaks under the present laws by which the public lands are now being absorbed at the rate of 25 million acres a year, and then hold each acre in absolute government title until it is ready to be settled upon by a man who will build a home upon it. This will not curb the true development of the land in the least, it is going to cut at a much too rapid rate for the good of the country's future.

GUY E. MITCHELL.

We, the undersigned, do hereby agree to refund the money on a 50-cent bottle of Green's warranted Syrup of Tar if it fails to cure your cough or cold. We also guarantee a 25-cent bottle to prove satisfactory or money refunded.

LENT BEGINS ON WEDNESDAY NEXT

Episcopal Church Has Certain Regulations for Observance of the Fast.

On Wednesday lent begins. All over the world the coming forty days will be kept in commemoration of the fasting of Jesus Christ in the wilderness of Judea. In the Catholic and Episcopal churches the fast is more closely observed than in any other church. To add the Episcopalians in their devotion Bishop Nicholson of Milwaukee has issued the following list of regulations to be observed. Daily services will be held in each of the Episcopal churches here throughout the period of fasting:

1. To be present at the holy eucharist every Sunday, and at least once during the week.
2. To receive holy communion every week, after careful preparation, and always fasting.
3. To abstain from flesh meat on Wednesdays and Fridays and other days of abstinence.
4. To avoid all social entertainments and public amusements.
5. To read some portion of the holy scripture daily.
6. To pray for others, especially for the conversion of sinners and for steadfastness in the faith.
7. To save money for the Easter communion.
8. To reconcile yourself to any with whom you are at variance.
9. To restrain the tongue from criticism of others, and from useless talk.

WASHINGTON POST SAYS SOMETHING

Scores the Milwaukee Organ for a Contemptible Attack Upon Babcock.

Under the heading "Contemptible and Cowardly," the Washington Post of Sunday morning printed the following editorial directed at the Milwaukee Free Press and the machine politicians of the state regarding the charges made against Congressman Babcock.

"The Milwaukee mouthpiece of the La Follette faction of the Wisconsin republicans, and the battery that is the chief offensive agency in the war between La Follette and his following are waging on Representative Babcock, chairman of the house committee on the District of Columbia, makes a contemptible and cowardly attack upon all newspapers and correspondents; who, in the discharge of their duty to the public, have made any allusion to the good work performed by Mr. Babcock in congress and in campaigns.

"They have scored Mr. Babcock with mean and malicious falsehoods, inspired by that hatred which a certain class of small minds inevitably cherish toward successful men whose nature commits them to detestation of base characters and their methods. It is cowardly because it seeks to name those at whom it aims its calumnies.

"Mr. Babcock, as our readers are well aware, is chairman of the republican congressional committee, and in that position has achieved the unexampled record of five successive victories. Meanwhile, as chairman of the district committee, Mr. Babcock has won and held, and still retains, the full confidence of the house and the grateful appreciation of the property holders and business men and other respectable elements of the district's population. "The Post, finding Mr. Babcock's services as district chairman grossly maligned in a pamphlet or booklet published by the La Follette faction, took occasion to publish a statement, in the interest of truth and decency, the opinion of this community as regards these services and likewise the almost universal opinion of La Follette's countrymen as to himself. That article appears to have touched off all the guns in the La Follette battery of promiscuous slander.

"The Milwaukee organ charges newspapers and correspondents with having been bought up by Mr. Babcock, and explains that he gets all the money required for this immense subsidization out of the funds he collects for campaign purposes. The lie is too transparent for effective use among well informed citizens, but there are many voters who are not well informed, and credulity always goes with ignorance. But such infamous, such dirty warfare as that is bound to react on those who indulge in it. It may possibly increase the demand for La Follette as a Chautauqua freak, but it will sink his ambition out of sight and bury his faction in irreparable disgrace. "It is impossible for the mephitic American to conquer the lion, but it can make itself disagreeable to and disliked by the lion and all other animals by its peculiar mode of assault. Now there is a heap of consolation in the statement of a learned writer that the mephitic American is a short lived animal, and generally goes hence by the action on itself of the medium of its assaults on men and beasts."

SURPRISED MRS. WARREN WITH A DELIGHTFUL REMEMBRANCE

America Rebekah Lodge, No. 28, Re-member Their Financial Sec.

On Saturday evening the conclusion of the regular monthly meeting of the America Rebekah Lodge, No. 28, of the east side, Mrs. Ella Wright stepped up to Mrs. Eliza Warren and presented her in the name of the lodge with a beautiful gold art metal pitcher. The presentation was made in a few well chosen words which expressed the sentiment of the lodge for the manner in which Mrs. Warren has for the last six years filled the office of financial secretary of the lodge. Mrs. Warren replied in a few words and an enjoyable banquet was laid before the lodge.

Preaches Tonight: Reverend Hatch will preach this evening, at the Baptist church.

News for the Railroad Men.

North-Western Road Fireman R. Stinson is off duty for a few days.

General Foreman Thomas Erickson was a Chicago visitor today.

Engineer Charles Manning, on the DeKalb passenger train, reported for work this morning.

Fireman J. J. Russell of the Wisconsin division is on the sick list.

Paul Criedlich, a storekeeper at the roundhouse, is confined to his home on Western avenue by illness.

Engineer Lou Miller is off duty today.

Train number 521 was an hour and a half late today.

Notes of the Railroads.

Charles W. Murphy has been appointed city passenger agent of the Southern Pacific at New Orleans, La.

J. H. Harlebeck has been appointed industrial agent of the Cleveland, Cincinnati, Chicago and St. Louis, with headquarters at Indianapolis, Ind.

Lawrence W. Gent has been appointed traveling freight agent for the St. Louis and San Francisco, with headquarters at Atlanta, Ga.; to succeed F. E. Clark, resigned.

L. C. Fitch, secretary of the American Railway Engineering and Maintenance of Way association, has accepted a position on the Illinois Central and will do special work, reporting to the general superintendent of the Mississippi division of the Baltimore and Ohio Southern, but was compelled to give up that position in November, 1902, on account of ill health.

The secretary of the treasury has issued a ruling with respect to manifests on shipments in transit through Canada, which provides that the first port in the United States where the shipments leave and enter Canada shall be considered a port of exit, no matter how many times the ship-ment shall cross the line back into the United States before reaching destination. This applies on both export and domestic traffic.

The railroads in Michigan, Indiana, Pennsylvania, New York, Canada and other parts of the country to the east have had tremendous struggles with snowstorms and cold the last few weeks, and in numerous cases trains have been blocked for hours. On the Rome, Watertown and Ogdensburg four passenger trains were reported lost in the snow drifts on Feb. 6, but were fortunately discovered the next day, not having strayed away from the lines. In the eastern Michigan peninsula railway operations in the northern portions were completely interrupted for days, and in some localities there was suffering from inability to procure food.

If you haven't time to prepare Hollister's Rocky Mountain Tea, it is now made in tablet form also. Get a package already to use. Makes you well; keeps you well. 35 cents. A. Voiss' Pharmacy.

DEATH CALLS JOHN HARVEY

Well Known and Prominent Resident of Rock Co., Treasurer of Calcedonian Society, Presbyterian Elder.

At his home, No. 11 Ruger avenue, Mr. John Harvey after months of great suffering, passed peacefully away shortly after seven o'clock Saturday evening. He was born in Strathgairn, Scotland, Aug. 4, 1824. He grew to manhood in his native land, developing character as strong and rugged as his native hills. April 9, 1852 he married Ellen McLellan of the same parish. Together they came to Rock Prairie, arriving in June of the same year. He underwent the usual hardships of pioneer life, taking a deep interest in all that pertained to the welfare of the community. He was active in local politics, serving as assessor, chairman of the town board, and treasurer, for many years. His zeal and love for the church was uppermost in his life. He has left an inheritance for good that will live. As superintendent of the Rock Prairie U. P. S. S. and an elder of the Presbyterian church he was most faithful for twenty-five years.

In 1859 he retired from active work, removing from his farm in Johnstonau to this city. He was an enthusiastic member of the Rock County Calcedonian society, also of the Presbyterian church in this city. His wife died in 1868, leaving three children, two of whom are living, Wm. B. and Jennie, of this city. In 1875 he married Miss Mary McGiffin, who with two daughters still survive him. Also one brother in Scotland, Alex. M. of La Prairie, and one sister in New Zealand, are left to mourn the death of a loving brother. The funeral will be held from the house tomorrow afternoon at 2 o'clock. Reverend Henderson will officiate. The interment will be at Johnstonau Center.

MARTIAL LAW PROCLAIMED

Residents of Viadivostok Must Find Shelter Elsewhere. Viadivostok, via Shanghai, Feb. 15.—Martial law has been proclaimed here. Those Russians who have no provisions must leave within two weeks. Russians with eight months' provisions may stay, but if the port is blockaded everyone must go beyond the fighting zone.

Removes the microbes which impoverish the blood and circulation. Stops all trouble that interferes with nutrition. That's what Hollister's Rocky Mountain Tea will do. 35 cents. Tea or tablet form. A. Voiss' Pharmacy.

BUYERS HOLDING THE PRICES DOWN

CROP THAT HAS BEEN TAKEN DOWN IN GOOD SHAPE.

SIX TO EIGHT CENTS IS PAID

Several Buyers Have Been Riding Through the County for the Past Week; But Report No Business.

According to some of the growers in Rock county they have taken down most of their crop. It is reported to be in fairly good condition and the majority of the crop that is down will be ready for delivery within the next three weeks. Local dealers have had buyers in the county to pick up tobacco from the growers during the past week, some of them have offered as low as 4 cents, saying they can buy good tobacco at that price. The growers on an average are receiving from 6 to 8 cents, this is about the highest price paid by the buyers thus far this season.

The movement in the new crop is assuming a good deal of activity since the advent of easing weather that permitted the crop to be taken from the curing sheds and stripping commenced. Buyers are riding freely in most of the growing sections and contracts running up into thousands of acres made during the week. Some surprise is expressed at the ease trading is effected under prices that in recent years would be termed very moderate, but buyers claim that there is less haggling as to terms and if the goods suit there is but little trouble in arriving at a satisfactory understanding. Under such conditions tobacco can be purchased very rapidly, though the aim of the buyer is, to make selections.

Only a moderate business is reported in old goods among packers. H. W. Child purchased 2500s of '02 from O. G. Hanson and 700s of J. Skoar at 7 and 2 cents. H. O. Hougans sold 520s of '02 to O. K. Roo at 8 cents. F. S. Daines reported the sale of 1600s to eastern parties for the week.

A few days of easing weather during the week has permitted growers to take down another portion of the hanging crop—possibly two-thirds of it—but we fear much of the leaf is in too light case.

The shipments of storage reach 12 car loads, 6000s, from this market to all points for the week.

The recent thaw enabled growers to take down the greater part of the tobacco from the poles and the work of stripping is now proceeding apace. Owing to the severe weather, however, which followed, and the bad condition of the roads, buyers have been prevented from riding and examining the tobacco, and as a consequence the market for the new crop has not yet opened. The leaf is described as of good quality with no indications as of pole burn, and good prices are expected.

New England. The market seems at last to have definitely weakened up. Most of the growers have been able to handle their crops, almost all of which have been taken from the poles. Buyers are numerous and there is a keen demand for good leaf. Prices range from 8 cents to 25 cents, with from 10 cents to 12 cents as an average in certain districts. Of Connecticut buyers figures were expected and growers are displaying much dissatisfaction; if the situation does not improve, they say, this year will be as bad as last, and the probable consequence will be a great reduction in next year's acreage.

RUN OVER BY HIS OWN TEAM

Wheels of a Heavy Lumber Wagon Passed Over Jerry Donahue's Prostrate Body Saturday Night.

As Jerry Donahue started to get into his lumber wagon at the corner of River and Dodge streets Saturday evening, the team suddenly started, the jolt throwing him to the ground. The wheels of the heavy vehicle passed over his body and it was feared by horrified onlookers that he had sustained fatal injuries. Dr. E. H. Dudley examined the man and found that no bones had been fractured, though the head was badly bruised and bleeding.

ANOTHER WOMAN WROTE TO HUBBY

His Beloit Wife Got the Letter—To Recover It, A. E. Moore is Alleged To Have Stabbed Spouse in Leg.

Fighting to get possession of a letter which his wife had in her possession Friday evening, A. E. Moore of Beloit is alleged to have stabbed his life partner in the leg with a jack-knife. He is now in the Rock county jail awaiting his examination which has been set for Wednesday at ten o'clock. Chief Scheibel was called to the Moore residence shortly after seven o'clock Friday evening by a telephone message from the wife. The husband was taken to the lockup for the night and in the morning Bertha Moore appeared before Judge Booth and swore out a complaint charging her spouse with assault with intent to do great bodily harm. The trouble is said to have arisen over a letter which Mrs. Moore had in her possession and which had been written to her husband by another woman. He is a painter and paper-hanger and had been employed at Harvard recently.

LIMA. Feb. 12.—Several from here attended the social at Wm. Armstrong's place Friday evening. Miss Mary Owens of Columbus, is visiting her friends, Mabel Boyd, this week.

There will be no meeting of the Literary society, Feb. 13, on account of the Valentine social at Mr. O. E. Truman's. Watch for the program for Feb. 20, in the P. O.

AMONG THE WORLD'S WORKERS

News Notes From Various Sources of Great Interest to the Workman.

According to the statistics of the Department of Labor, which got its figures from 2,667 families with an average income of \$27.13, and an average expenditure of \$26.54, the cost of living in 1902, when it was highest, was 16.1 per cent. more than in 1896, when it was lowest. Average wages have increased that 16.1 per cent.; in some cases by more. The Employers' association of Chicago, estimates that the cost of living increased by 16.8 per cent. from 1898 to 1903. Various newspapers and independent observers have guessed a much higher increase of cost, even more than double.

1,500 miners employed by the Ellsworth Coal company, in Washington county, Pa., have gone on strike because the company reduced wages about 13 cents a ton below the established mining rate. Today organizers of the United Mine Workers of America visited the mining villages and organized the miners who have been non-union.

The situation in the strike of the rubber workers at Trenton, N. J., remains practically the same, both sides claiming to be making gains and that victory is certain. The men say the manufacturers are aware of the fact that they intend to remain out until the demands are acceded to, and the bosses make statements to the effect that the strike is over, so far as they are concerned.

Employers of 90 per cent. of the coal-hauling engineers of Boston, Mass., and vicinity, have signed the new wages scale and agreement, which increases the wages of hoisting engineers \$1.50 a week and trolley and cable engineers \$1 a week. The other prices are identical with the old agreement.

To employees of the Carnegie Steel Company, and its many constituent concerns there were paid during the last year \$480,625.17 from the Andrew Carnegie Relief Fund. The amount covers \$106,655 for accidents, \$46,824 for deaths and \$27,172 for pensions.

A wage and working agreement for 1904 has been agreed on by the committee of the Master Teamsters' Association and Team Drivers' Union, No. 25, and all possibility of a strike of the 6,000 truckmen and drivers of that union is ended.

Judge Lewis has reduced the bonds required of the union leaders of Cripple Creek, Colo., who were held while the district was under martial law, and they have been released. Their hearing has been set for February 16.

The miners' strike in the Meyersdale field, when 3,000 men went out on December 16, if representatives of the company are to be believed is practically broken.

Eight cotton mills, with 2,000 employees, at Concord, N. C., will reduce their working time from seven to four days a week.

The strike textile workers in Saxony continues. It originated in the refusal of the employees to grant a ten-hour day, instead of eleven hours.

DIED AT AGE OF 103 YEARS

Mrs. Eliza Huff Voorhels, Formerly of Clinton, Saw the Dawn of Two Centuries.

Mrs. Eliza Huff Voorhels, for some years a resident of Rock county, is dead at her home in Sangston, Michigan, at the age of one hundred and four years. She lived in Clinton with her sister, Mrs. John A. Covert, until the latter's demise in 1901. The late Dr. George Covert was a nephew. Mrs. Voorhels was born in New Jersey in the same neighborhood as the late DeWitt Talmadge and it was a matter of some pride with her that she had made his first pair of trousers. Her mother, Mrs. Maria Huff, was also a centenarian, being 101 years old at the time of her death in March, 1853.

Spoke at Y. M. C. A.: Hon. John M. Whitehead addressed the men's meeting at the Y. M. C. A. yesterday afternoon. The meeting was well attended.

WHY IT IS SO.

When it is known that its power to strengthen the system and build up the body is why Father John's Medicine cures and all throat and lung troubles; it will be understood why it is so valuable as a tonic and for driving the impurities out of the blood. It feeds the tissues and makes strength. All disease is due to a run down condition of the body, unhealthy tissue, blood poisoned with impurities, and general weakness. While we recommend Father John's Medicine for a number of ailments—in the sure of which it has always been successful as those who endorse it tell you—you must understand and remember that all these ills are of the same kindred or family; that they all come from the same source or cause, as stated above. The principle of this medicine is simple. It flushes the food that the body requires, and strengthens each organ so that it can do its work—that is how the system is cleared of the impurities and poisonous waste matter—and it supplies bodily warmth and vitality. Its ingredients are the same kind of food and nourishment that blood and tissue are made of—pure and wholesome.

The Badger Drug company, corner Milwaukee and River streets sell Father John's Medicine.

MUSICAL AND DANCE AT THE STATE SCHOOL

For the Blind Was Enjoyed by Many Participants Saturday Night.

Students of the State School for the Blind and several hundreds of their friends in the city enjoyed a musical program and social, followed by a dance, in the big gymnasium Saturday evening. The Badger Concert Co., composed of students, rendered a number of selections which were well received and the school orchestra furnished the music for the dance.

TO KILL THE DANDRUFF GERM.

Is the Only Possible Way of Having An Effective Cure.

If you see a woman or a man with luxuriant glossy hair, you may be sure neither has dandruff to amount to anything. In nearly every case where women and men have thin brittle hair, they owe it to dandruff. There are hundreds of preparations that "claim" to cure dandruff, but not one but Newbro's Herculite tells you that dandruff is the result of a germ burrowing into the scalp, and that permanent cure of dandruff and its consequent falling and baldness, can only be effected by killing the germ; and there is no other preparation that will destroy that germ but Newbro's Herculite. "Destroy the cause, and you remove the effect." Sold by leading druggists. Send 10c. in stamps for sample to The Herculite Co., 200 West Madison St., Chicago, Ill.

People's Drug Co. and King's Pharmacy, Special Agents.

Colder Weather Coming. The problem of keeping warm during this cold weather is a serious one. The best method known to date is to wear a Champion Silk Vest.

We have a large stock which during our recent flood was damaged more or less; some were soiled, others only the boxes discolored. We wish to close them out at once and will accept from one-half to two-thirds their value. Practically the vests are as good as new. Both ladies' and gentlemen's styles.

BADGER DRUG CO.

Ash Wednesday February 17th.

Our stock is composed of A No. 1 goods, all new and full weight. Send your order this way. Salt Herring per pound..... 5c. Nice large Red Salmon per lb..... 10c. Sweetish Spiced Herring per lb..... 10c. Large Trout per lb..... 12c. Family Mackerel per lb..... 15c. Chunk Haddock per lb..... 18c.

FRESH MEATS

Pork is on the rise and so doubt before long we will have to raise in price; but you will always find us the lowest, and we are still holding the old price, 10c per pound.

Round Steak..... 10c. Sirloin Steak..... 12c. Finest Rib Roast..... 10c. Rump Roast, bone out 10c. Choice Boiling Meat 5c, 7c, 8 & 10c.

Our COFFEES and TEAS are meeting with elegant success and we bank we can please you if you will try our goods.

GROCERIES

21 lbs. Granulated Sugar \$1.00. 1 lb. pkg. Keith Enamel Starch..... 5c. 1 lb. pkg. Baking Soda..... 5c. 1 lb. good Baking Chocolate 25c. 3 cans Lewis Lys..... 25c.

Buob's beer contains only the purest of materials in its manufacture. We deliver direct from the brewery in either pint or case lots.

at the Dye House. They make old garments look like new.

The Taffy Pull

Karo

CORN SYRUP

is far superior to any other syrup for making taffy or candy of any kind. Try the following recipe. It is convincing.

Put a small tin of Karo Corn Syrup into a kettle holding four times the amount of syrup used and boil over a slow fire for half hour, stirring all the time to prevent boiling over and burning. When a little dropped in cold water becomes hard, snappy, add it to teaspoonful of carbonate of soda, stir quickly and thoroughly, then pour on greased platters. When cool enough to handle without burning the hands, pull. A little butter rubbed on the hands will keep it from sticking. The more it is pulled the whiter it becomes. Flavor to suit.

Karo Corn Syrup is good for all home uses from griddle cakes to candy. Sold in all right, friction-top tins, 10c, 25c, 50c. All grocers.

CORN PRODUCTS CO.,

MORMONS MUST OBEY OR QUIT

Presidency Ousts Officials Ignoring Priesthood in Politics.

Brigham City, Utah, Feb. 15.—Drastic measures are being resorted to by the Mormon presidency to enforce obedience to the priesthood in all political and business affairs. President Kelly of this state is leading in the effort. The city council has been dominated by the quorum of priests and business houses have been boycotted by them. Young officials of the church have been ordered to stand up in open congregation and promise implicit obedience to the priesthood. Ten who declined to do this were summarily expelled. Ultimatums have been issued to twenty others to comply with Kelly's demands or be treated similarly.

PRAIRIE CHICKENS HURT CROPS

Destroy Kansas Crop and Wheat—Hunters Seize Opportunity.

Topeka, Kan., Feb. 15.—Prairie chickens are destroying the corn and wheat crops in Geary and Riley counties, north of Fort Riley. The big prairie fire which swept over the military reservation drove thousands of prairie chickens to the farms. For many years hunting has not been allowed on the government reservation, and the chickens have multiplied by the thousands. Sportsmen are going there on every train for a slaughter, consent having been given. Farmers are advertising the advantages there to hunters.

NEW ENGINE IS SIZE OF WATCH

Canadian Shows Minute Invention That Runs Big Saw.

New York, Feb. 15.—The marvel of the national auto-exposition, it is said, is a new steam engine invented by a man named Weeks, from Canada. Mr. Weeks has a six-horse power steam engine that is about the size of a dollar watch. It is made of old boiler tubing and is applied to a ten-inch circular saw, which cuts through cypress or oak several inches thick. A fifty-horse power engine if made of nickel steel, Mr. Weeks says, could be held in a boy's hand or carried in the pocket of a sack coat.

FINDS CURE FOR HOG CHOLERA

Dr. R. E. Graham of Missouri Says Inoculation Prevents the Disease.

Columbia, Mo., Feb. 15.—After experimenting for three years, Dr. R. E. Graham, formerly the bacteriologist of Missouri University, has announced that hog cholera can be cured by inoculation, the same as "Texas fever" among cattle. One hundred hogs were inoculated recently with a serum and then exposed to the disease and none was infected. Several hogs that had cholera were cured by inoculation.

Col. Bouck Near Death.

Oakhurst, Wis., Feb. 15.—Col. Gabe Bouck, who lies near death at the Althea hotel, showed no notable change. His weakness, however, became more accentuated and the amount of nourishment he could take was less than formerly.

Negro Dies at Age of 105.

Springfield, Ill., Feb. 15.—Robert Collins, colored, the oldest resident of Christian county, died at his home in Taylorville at the age of 105.

TELEGRAPHIC BREVITIES.

The Dreyfus case has been definitely set for trial by the French court of cassation, beginning Feb. 25.

Alvinza Hayward, the millionaire mining man who was stricken with paralysis several weeks ago, died at his home in San Francisco.

Prof. Charles Emerson Beecher, Ph.D., professor of paleontology and curator of Peabody museum at Yale, died at his home in New Haven, Conn.

The Scott county, Illinois, Republican convention to name delegates to the congressional and senatorial conventions has been set for March 7 at Winchester.

The Giornale di Italia says the approaching visits to Rome of Archbishop Farley of New York and Archbishop Quigley of Chicago are connected with the appointment of an American primate. The statement, however, is denied unauthoritatively at the Vatican.

We Paid \$100,000

For the American rights to Liquezone—the highest price ever paid for similar rights on any scientific discovery. We did this after testing the product for two years, through physicians and hospitals, in this country and others. We paid it because Liquezone does what all the skill in the world cannot do without it. Any drug that kills germs is a poison, and it cannot be taken internally. Every physician knows that medicine is almost helpless in any germ disease.

Not Medicine.

Liquezone is the result of a process which, for more than 20 years, has been the constant subject of scientific and chemical research. Its virtues are derived solely from gas, made in large part from the best oxygen producers. By a process requiring immense ap-

Liquezone is the only way known to kill germs in the body without killing the tissues, too. It is the only way to end the cause of any germ disease. It is also a vitalizing tonic with which no other known product can compare. It is new in America, and millions who need it don't know of it. For that reason, we make this remarkable offer. We will buy the first bottle and give it to you if you need it. We will do this gladly to let the product itself show you what it can do.

We Paid \$100,000

We Will Buy

A 50c. Bottle of Liquezone and Give it to You to Try.

paratus and 14 days' time, these gases are made part of the liquid product. The result is a product that does what oxygen does; and oxygen is the very source of vitality, the most essential element of life. The effects of Liquezone are exhilarating, vitalizing, purifying. Yet it is a germicide so certain that we publish on every bottle an offer of \$100,000 for a disease germ that it cannot kill. The reason is that germs are vegetables; and Liquezone—like an excess of oxygen—is deadly to vegetable matter. That is why Liquezone kills every disease germ, and with a product which to the human body is life.

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Liquezone kills the germs; wherever they are, and the results are inevitable. By destroying the cause of the trouble, it invariably ends the disease, and forever.

THE CAMPAIGN OF 1904.

Our Washington dispatches with reference to President Roosevelt's position, and the success of the Bryan-Hearst combination in seizing the reins of the Democratic coach, tend to clear the air very much. As our Washington correspondent says, "I now look as if the fight will be between Mr. Roosevelt and a Bryan-Hearst combination."

The fight of the "high finance" against Mr. Roosevelt has practically ended, in the entire defeat of the former. For more than a year the most strenuous, scientific and varied efforts have been made to discredit the President in the eyes of his party and the people, and at times these efforts have not been characterized by what might be called an over-nicety of taste. They have, however, failed, and one by one the principal elements in the "high finance" have confessed failure and abandoned a hopeless task. But one thing remains to be tried, and that is doomed to failure with the rest; namely, an effort to make people believe that the President has compromised with the "high finance" in some way or other. He has, of course, done nothing of the kind, for he has nothing to compromise. Nevertheless, this has not prevented the attempt to involve the administration in the fate of the Foraker bill, which bill looks very much as if it were in the nature of a sharp knife intended for the President's back. There is, however, no danger of the public being misled with respect to this matter, and it is now reasonably clear that Mr. Roosevelt will be nominated without opposition by the Republican convention.

The Bryan-Hearst combination is a fitting finale to the Democratic career of dissipation, which began almost immediately after the second election of Mr. Cleveland. That Mr. Bryan should have sunk so low as to ally himself with Hearst is a disappointment to many, who, while they had had previous evidence of his moral instability, were totally unprepared for such a plunge into the depths as this. The country is, however, fortunate in that it knows the worst, and a ticket composed of Bryan and Hearst would leave very little room for doubt as to the ultimate outcome. The Democratic party seems fated, as has been said more than once, to drink the cup of degradation to the dregs. If Mr. Hearst is not the dregs, then totally new abysses must open up, the existence of which are not even suspected at the present time. The only consolation in the matter is that there will be a chance for the revival of a decent democracy, purged of the elements which have now for eight years kept the party feeding, as it were, upon the husks of swine.

"RESTRAINT OF TRADE."

The prompt disappearance into limbo of the Foraker bill, which had for its object the limitation of the anti-trust law, and to some extent of the interstate commerce law, is natural enough in the circumstances. It is extremely doubtful that any such bill could be passed in any such form under any conditions. Doubtless the use of the word "reasonable" in connection with restraint of trade, looks all fair on the surface and offers a decidedly attractive appearance. There is equally little doubt that in point of fact business is now carried on under a comprehensive system of "reasonable" restraints upon trade which have been proved by experience harmless, not to say necessary. It may further be admitted that harmful restraint of trade is relative, and that what is harmful restraint of trade at one time and at one place is not harmful restraint of trade at another place and time. When all is said and done, however, it may well be doubted that this is the time and the place for any great change in the present anti-trust law or its applications.

If there were only Mr. James J. Hill to deal with, no one need have much fear of combinations. Mr. Hill is one of the very few great railroad men in this country who have been able to extend their line of vision beyond the dollar immediately in sight. He has from first conducted his transportation business on the principle that the territory which he served must prosper before his railroad could prosper. He has practically made the northwest and the Puget Sound territory what it is today. If the process of combination could stop short at the Northern Securities company, as it is now constituted, and if Mr. Hill's policy and methods could be guaranteed in perpetuity in the conduct of that company, we believe it would be a good thing for the northwest. But, as every one knows, this cannot be done.

Those who are of an imaginative temperament can profitably devote themselves to forming a picture of what might have happened had the Securities Company idea been allowed to go unquestioned by the law. There are many men prominent in railroad finance and management whose records are such as to exclude them from the confidence of the public, either as railroad managers or as financiers. If these men had had a free field for the exploitation of the public it cannot be doubted that the effects would have been disastrous. It is necessary for the general good that there be a check upon the activities of such men, and it is unavoidable that such a check shall interfere with the operations of men like Mr. Hill, themselves worthy of trust. The time has not yet come for a general letting down of the bars in this matter. The key to the railroad problem lies in mutual concession. The railroads must concede to the public ultimate control over rates, and the public should concede to the railroads right to use the machinery necessary to make their rates effective. The public will infinitely assume control over rates sooner or later, and if the railroads delay they may be able to secure nothing for the concession. Two amendments to the interstate commerce law would meet the case; one giving the commission power over rates, and the other giving railroads permission to pool. With a commission reconstituted as to personnel this would settle the railroad question.

COUNCIL MEETING.

This evening the common council will hold its regular meeting. So much has been said regarding the freight clause in the interurban franchise both in the columns of the newspapers and in the two mass meetings that decided in favor of its adoption that it is not necessary at this time to remind the city fathers that it is the wish of the people of the city who elected them to their offices that the freight clause should be added to the present franchise as it stands. Members of the council who opposed the clause have signified their intentions of passing the ordinance as asked for at the present time without doubt it will be passed. However, the meeting tonight will be full of interest to the large gallery of spectators who will doubtless be present.

PRESS COMMENT.

Rice Lake Leader: What was termed the Sawyer machine, was simply a wheelbarrow compared to the mechanism of the electric-powered, forward and back action machine now in operation at Madison. It is the first and only political machine, run at the expense of the taxpayers, democrats, republicans, prohibitionists and populists. It cost the boss nothing—and he can run it for all it is worth.

Baraboo Republic: No, it is a mistake. Some one asks if W. R. Hearst owns the Milwaukee Free Press as it is like the Chicago American, and that string of papers owned by him. No, Mr. Hearst has nothing to do with that paper. Uncle Ike owns the building and most of the office. The trash in its editorial columns is written by some old gentlemen hired for that sort of thing.

Mineral Point Tribune: A whiskey advertisement advises travelers to take a bottle of theirs with them, with the assurance that "it will make the journey smoother." Wonder if this is meant to catch in particular the attention of those who ride over the bumpy-bump track between here and Jansville.

Milwaukee Sentinel: Elbert Hubbard says his new wife "is as fine mentally as Elizabeth Barrett Browning and strong as George Eliot." Somehow brilliant women do generally manage to fish up about the worst thing in the matrimonial grab bag.

Oshkosh Northwestern: Squirm and wriggle as they will there is no escape from the conclusion that the Democratic party is up against the real thing in the shape of the Hearst candidacy, and unless the signs are greatly misleading he is the coming man for the Democrats.

Buffalo Express: Considerable surprise is expressed because the German crown prince talked back to his royal pa. How does it happen that the royal family has been thought hitherto to be different in this respect from other families?

Hudson Star-Times: The buzzards are buzzing down in the Third Congressional district, where politics is one continual round of sizzling. Joe Babcock's savory carcass is the ob-

ject of prey now, but it is not yet a corpse, by quite a majority.

New York World: The latest University of Chicago professor to break forth calls the Bible a scrap-book. His own "scrap" will follow speedily and not under Biblical rules.

Chicago News: Perhaps when she hears the firing in the north the empress of China does not think those sixty automobiles presented to her one too many.

Washington Post: John D. Rockefeller, Jr., boasts of having cut eighty cords of wood in one winter. His esteemed father is the member of the family who continues to cut ice.

New State Journal: Kunzite, the new gem, is described as coming under the head of apodumene, otherwise known as the triphane. That makes it clear to the merest child.

Baraboo Republic: So far the news from the Orient shows that the plucky little Japs have carried their own ward and some of the outside precincts besides.

Chicago Tribune: Much comfort may be derived from the reflection that eggs are worth 10 cents apiece in Panama.

Madison Democrat: Anyway Wall's boom for president has not entirely overhauled the Russo-Japanese war.

An Animal Story For Little Folks

The Handy Eel

Said Mrs. Eel one morning:
"Pray, don't forget those things;
Remember first the crullers
And then the muffin rings."

"Be sure to stop at mamma's
And get a jar of jam,
Then swim down past the grocer's
And buy a little ham."

"I'd like a dozen eggplants,
A dozen onions, too;
Of parsley get two bunches
To put into the stew."

HE REACHED HOME WITH BUT TWO.

"Then come home past the butcher's
And buy a beefsteak rare,
A pound or two of cutlets,
If you see good ones there."

She tied a string around him
So he'd know what to do,
He bought the things she wanted,
But reached home with but two.

They were the rings and crullers,
Which to the eel had clung,
Because he had them nicely
Upon his backlet string.

"My dear," he said, "don't send me
In future for your things,
Unless each has a hole in
Like these nice muffin rings."
—Detroit Journal.

Quadracycle Fire Engine.

A quadracycle, composed of two tandem bicycles arranged side by side, has been invented in Paris to serve as a fire engine in cases of emergency. It is worked by four men, and is fitted up with the necessary hose pipes and fittings, which occupy the space between the riders. On reaching the scene of action it will be the work of a minute to bring the hose pipes into play on the fire.

Propose Great Bridge.

The greatest project for bridge work comes from Asia where a railway commission has just recommended the old plan of connecting Ceylon with India by a bridge across the reef called "Adam's bridge" and the island of Rameswaram.

"MARBLE CITY" IN IRELAND.

Material Used for All Sorts of Purposes in Kilkenny.

How many people are there who know that there is at least one town in Ireland whose buildings and streets are mostly of marble, whose shops, houses and churches are adorned with it? Surely not many. The town of Kilkenny in Ireland. This beautiful town has gained the designation of the "Marble City" because so plentifully has the native black marble found in its vicinity been used for various purposes in the town, that as a matter of fact, the very streets are paved with it. Black marble is not the only kind found and used, however, in the town. There are some splendid examples of what Ireland can produce in marble to be seen in the cathedral at Kilkenny. Green speckles are observed even finer than the black ones, and the reddish itself is an excellent instance of what Ireland can show in this way. The supports of the pulpit, too, are discovered to be solid pieces of this green marble, which is found, not about Kilkenny so much as in the farther district of Connemara.

Some people acknowledge that they have a skeleton in the closet and don't make any bones about it either.

An affair of the heart should not be entered into in a half-hearted sort of way.—Philadelphia Bulletin.

SIPS FROM THE PUNCH BOWL.

Whisky cannot talk, but it tells on a man.

A single quill often makes a goose of many a man.—Pennsylvania Punch Bowl.

It ain't considered lucky to marry a scoldin' woman on a Thursday, Monday, Saturday, Wednesday, Sunday, Tuesday or a Friday.

It's unlucky when callin' on a young lady to have the family under the impression that you're just a-dyin' to set up with the hull crowd.

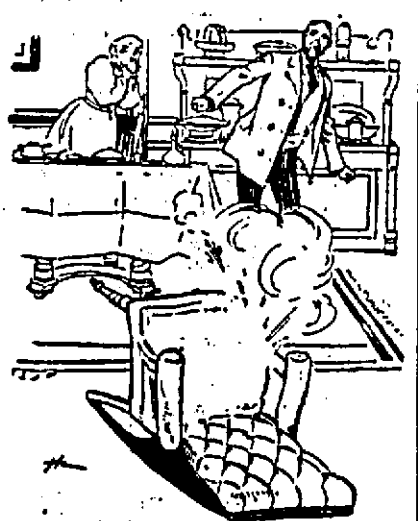

It's unlucky to wear a short-tailed coat and a pair of linen pants to a Baptist picnic on a Thursday and sit down on a raspberry pie.

It ain't considered lucky when you've called on your lady love a hull lot later than you'd ought to, to hear her father's number 'leven, boots a-comin' down the stairs.

I s'pose that there are more unlucky signs that folks of a superstitious turn of mind might suggest, but these are enough to show that there are a hull lot of things occurin' about us every day that set us a-thinkin' more or less. As I said, I ain't a mite superstitious, but I do think it's bad sign to hear two black cats a-yowlin' under my window of a June night just when I'm a-wantin' to go to sleep.—"Hank Slink," in Boston Globe.

THE CARUTHERS AFFAIR

is a tale of surpassing interest, and relates a series of adventures and mysteries which

SEEMS INCREDIBLE.

THIS wonderfully interesting story will begin in the next issue of this paper. Copyrighted, and published by special arrangement.

STRENGTH.

The following companies have all been heard from in regard to the Baltimore fire, and all companies that we are on will meet all losses promptly, paying all claims 100 cents on the dollar and have abundant capital left for the protection of all its policy holders:

American Ins. Co., of Newark, N. J.
American Ins. Co., of Philadelphia, Pa.
Teutonia Ins. Co., of New Orleans, La.
The Fire Ins. Co., of the County of Phil., Pa.
National Union, of Pittsburgh, Pa.
National Ins. Co., of Allegheny, Pa.
United Underwriters Agency, composed of
German Fire Ins. Co. of Indiana, National
Ins. Co. of Allegheny, Pa.; Farmers' and
Mechanics' Ins. Co. of Lincoln, Neb.

We aim at all times to represent nothing but good sound companies, and promise our patrons the best protection at all times.

SCOTT & SHERMAN.

Room 2, Phoebe Block.

Rheumatism

"THE PAIN KING."

Those who have ever felt its keen, cutting pains, or witnessed the intense suffering of others, know that Rheumatism is torture, and that it is rightly called "The King of Pain."

All do not suffer alike. Some are suddenly seized with the most excruciating pains, and it seems every muscle and joint in the body was being torn asunder. Others feel only occasional slight pains for weeks or months, when a sudden change in the weather or exposure to damp, chilly winds or night air brings on a fierce attack, lasting for days perhaps, and leaving the patient with a weakened constitution or crippled and deformed for all time.

An acid, polluted condition of the blood is the cause of every form and variety of Rheumatism, Muscular, Articular, Acute, Chronic, Inflammatory and Sciatic, and the blood must be purged and purified before there is an end to your aches and pains. External applications, the use of liniments and plasters, do much toward temporary relief, but such treatment does not reach the real cause or cleanse the diseased blood; but S. S. S., the greatest of all blood purifiers and tonics, does cure Rheumatism by antioding and neutralizing the poisonous acids and building up the weak and sluggish blood. It is safe and reliable in all forms of Rheumatism. It makes the old acid blood rich, and the pain-tortured muscles and joints are relieved, the shattered nerves are made strong, and the entire system is invigorated and toned up by the use of this great vegetable remedy.

If you have Rheumatism, write us, and our physicians will furnish without charge any information desired, and we will mail free our book on Rheumatism.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

If...

your work has increased in volume and importance, and your salary has not—there's something wrong which a want ad. may set aright.

3 Lines 3 Times, 25 Cents.

WANT ADS.

WANTED—Everybody who owns horses, to secure some of the big bargains at our closing out blanket sale. J. H. Murray.

WANTED—A first class stenographer. Apply at office of Marshall Co.

WANTED—by student attending school—Place to work mornings, evenings and Saturdays for board. Valentine Bros.

WANTED TO RENT—A 7 or 8-room house, with modern conveniences, in Third ward. Address W. G. Gault.

WANTED TO RENT—House with small barn, near business portion. Address O. W. Donkley, R. F. D. 7, Jansville.

WANTED—Everyone to know that I remove my corns, bunions and ingrowing nails. No pain, no soreness afterwards. Hugh M. Jones, (French Block, W. Miller, 25, old Bluff, 4th St.)

WANTED TO RENT—Three or four furnished rooms for light housekeeping. Address L. S. Gault.

WANTED—One or two furnished rooms, with bath in house, for office man. Address A. C. Gault.

WANTED—I desire to enter the Jansville business field, and will purchase a stock of merchandise, providing location and conditions are favorable. If you are anxious to sell, address, giving particulars, 141 Grand Ave., Chicago, Ill.

FOR SALE

FOR SALE—Good residence, with barn; best location in city. Will trade for small house. Inquire of H. W. Dodge, 10 Milwaukee avenue.

FOR SALE—Household furniture at 22 Hyatt street. Call at once.

FOR SALE—Beautiful summer or winter residence, 14 rooms and apt. gallery; lot water and hot air heating; farm house with two barns on property; 40 acres of land; 600 feet front on Lake Mendota; right-of-way to Oconomowoc; at 20 per cent of the original cost. Make terms. Apply to E. A. Dumer, 416 Hayes Block.

FOR SALE—Small new house, 10 room front, located in Third ward. Price \$3000; cash; balance 6 per cent. Call E. A. Dumer, 416 Hayes Block.

FOR SALE—An 83-acre farm near city; a 200-acre farm in central Wisconsin; good improvements. Also house and lot in city. Make terms. Inquire of H. L. Maxfield, Room 2, Central Block.

FOR SALE, CHEAP—High black walnut bedstead and springs, from \$35 suite. Inquire at 101 North Academy street.

FOR SALE—A Bargain—Roll paper enter 214 North Academy street.

FOR SALE—Old papers for shelves and for laying under carpets. Five cents a bunch, at Gault's office.

FOR SALE—A span of ponies, both good and strong; drive single or double; weight about 1500. Wm. M. Rose, Jansville.

FOR SALE—400 acres of timber land in central Wisconsin. All together or in parcels. Would trade for an improved farm. Wm. M. Rose, Jansville.

SPARKS FROM THE WIRE
A farmhouse that was nearly completed on E. Nicolai's farm, near Big Bend, was burned to the ground. Coal gas in a magazine heater caused an explosion in the home of P. Robertson at La Crosse. The stove was blown to pieces and the furniture ruined.

Nine carloads of machinery from the Allis-Chalmers plant, Milwaukee, and from the Westinghouse plant, have been unloaded at the new power house at Green Bay for the Knox Construction company, which is building an interurban line between Green Bay and Kaukauna.

W. H. Cheever of Milwaukee was present at the meeting of the institute conductors held last Friday and Saturday at Madison. President Charles McKenny of Milwaukee spoke to the City Teachers' association of Racine last Friday.

At a meeting of the Milwaukee Athletic association, held last Monday, it was decided that the association pay for putting the pictures of both the first basketball team and that of the Cardinals in the Echo. An assessment of 50 cents a member was levied to carry this into effect.

Insurance Companies of Solid Worth

DR. CARRIER OF CARROLL COLLEGE

PREACHED AT PRESBYTERIAN CHURCH SUNDAY MORNING.

TALKED OF SMALL COLLEGES

Told of the Great Work Being Done and To Be Done in the Future by These Institutions.

Dr. Willbur O. Carrier, the new president of Carroll college at Waukesha, preached in the Presbyterian church in this city yesterday morning on "The Christian College." Dr. Carrier has lately given up his pastorate in Chicago to undertake the work of building Carroll into a strong institution. It is hereafter to be the Presbyterian Synodical college and it is thought has a bright future.

He spoke of the high ideal of the state schools—the university and normal schools. They have their place and function, but from the Christian standpoint the Christian college has a higher ideal, for it deals not only with the intellect but with the immortal man. In the Christian college every teacher is supposed to be a Christian of pronounced Christian faith and to have a deep personal interest in all the students' moral and intellectual welfare. Second, the Bible, the noblest and most important of all books, is their textbook and is systematically studied. Third, all subjects, such as science, philosophy, and history are considered from the Christian standpoint, and fourth, that a very large per cent of the students in the Christian college were Christian, making thus the association of young people very helpful. That all these influences were of great importance in the development of the mind and character of the man of woman in the formative and doubling period of life.

Small Colleges
He spoke of the good work done by many of the small colleges; that blessed is not necessarily greatness; that quality rather than quantity should be the aim; that in the small college the personal influence of the teacher over the student is greater where men are known by name and as individuals. Four fifths of the studies in a college course need only an ordinary recitation room and a good professor—that large libraries and laboratories are for the specialist and not necessary for the broad foundation of the college course. The small colleges have turned out a larger proportion of our great men than have the great universities.

The College
The denominational college seems necessary for the advancement of the kingdom of Christ for it is the source of most of our Christian leaders, such as preachers, missionaries, and strong, aggressive, Christian laymen.

Carroll College
He spoke at some length of the aim of Carroll college. The endeavor to maintain high scholarship and fit young men and women for useful lives and they sought to make it possible for every ambitious young person to obtain an education. There is promise of larger things, more students are expected and the school is planning for new buildings and an increased endowment.

CHICAGO PASSENGER DELAYED SATURDAY

Engine Breaks an Eccentric Strap About Five Miles South of the City.

Train No. 521 on the Chicago & North-Western road was delayed for two hours Saturday as the result of an eccentric strap breaking on the engine and punching a hole through its boiler, letting all the water out of the engine, and the train was obliged to remain there until another engine was sent from this city to pull the train here. Conductor Stuart walked the distance, some five miles south of the city, to the roundhouse in this city and reported the accident. He returned with an engine and took the disabled train to this city where the engine was taken off for repairs.

NEWS OF THE DAY IN TOWN.

Ray Podewell Injured: Ray Podewell is confined to his North Academy street home with a fractured ankle. The injury was sustained at his home. Dr. Woods is attending him.

Bring Good Prices: At the auction of horses conducted by Tarrant & Keumner at the Park hotel Saturday, twenty animals were sold for the average price of \$125. The same firm will sell two car-loads in Milwaukee next week and will hold another auction here very soon.

Shipping to Manitoba: Alex. Galbraith & Son shipped ten heavy draught horses to Manitoba Saturday evening. The animals were all imported stock from Scotland for which the market in Canada is now exceptionally strong. Charles Galbraith accompanied the consignment to its destination.

Present at Dedication: Dean E. M. McGinnley was present at the dedication of the new St. Rose's Catholic church in Racine yesterday. The new edifice is one of the finest in the state.

Slowly Improving: The condition of little Griffith Pierce continues to show slight improvement and though he is progressing slowly those in attendance are much encouraged.

Meet Tonight: The Schumann club will meet this evening at 7:30 at K. P. hall.

Meet Tuesday: Omega Council, No. 214, Royal league will hold a family gathering at their hall tomorrow evening. Supper will be served at 7 o'clock. All members are requested to be present with their families.

New Order: After Feb. 15th the C. M. & St. P. Chicago train 7:30 a. m. will drop a mail pouch at Avalon. This will be a convenience to the people in that section of the county.

FAMILY TILL WAS QUICKLY LOCATED

Roll of Greenbacks Amounting to \$110 Missing from Louis Bailey's Bureau Drawer—Also Farm Hand, Louis Baillou, a farmer of Argyle, is looking for one Frank J. Johnson, erstwhile farm-hand, who is believed to have in his possession a portion of a roll of greenbacks amounting to \$110, taken from the bureau drawer of Baillou's home while he and his family were visiting with neighbors. Johnson was recently arrested and placed behind the bars in Rockford for stealing \$120 from a younger brother but was released week before last on the withdrawal of the complaint and his promise to leave the city. He secured employment the first of last week at the Baillou farm but resigned his position and disappeared Tuesday night while the family was absent.

FUTURE EVENTS

Columbian quartette and Miss Fisher Shipp, reader, at Y. M. C. A., Monday evening, Feb. 15.
The May Davenport Burlesque Co. at Myers theatre Tuesday evening, February 16.

20-inch Stevens' crash, 12 1/2c value for 7c at our special clearing sale. T. P. Burns.
The Columbian Male quartet and Miss Fisher Shipp, reader, at the Y. M. C. A. tonight. Don't miss this rare musical treat.

BEFORE THE GREAT JUDGE

George S. Lee
George S. Lee, for many years a resident of Magnolia, died at his home in that township after a lingering illness of many months, Sunday morning at 7 o'clock. Mr. Lee was born in Camden, Ohio, in March of 1835. He grew to manhood in his home town and in July of 1854 he married Miss Maria Fellows of Camden. In 1864 he removed to Wisconsin and settled in the township of Magnolia where he has since lived. He leaves to mourn his loss a widow and four children, William, Ann Bishop of Evansville, Edwin of Broadhead, and Herbert of Magnolia. Eleven grand-children and one great grand-child and four brothers who reside in Ohio, are also left to mourn. The funeral will be held Tuesday afternoon from the family residence and the service will be conducted at 11 o'clock from the residence and at 12 from the Advent church by Rev. Churm of Evansville. The interment will be at Evansville.

Mrs. Bridget Farrell
Mrs. Bridget Farrell died at the home of her daughter, Mrs. Rosa Orr, No. 11 Riverside street, Sunday morning at 9:30 o'clock, where she had made her home for the past eight years. Mrs. Farrell was born in Roscommon, Ireland, 80 years ago. Her husband, William J. Farrell, preceded her to the other world twenty-seven years ago. She leaves one daughter, Mrs. Rosa Orr, and one son, William Farrell, besides many relatives and friends. The funeral will be held at 9:30 Tuesday morning from St. Patrick's church.

John Murray
Death summoned John Murray, an old resident of this city Sunday afternoon at his home on South Jackson street at 3:45 o'clock. He has been a resident of this city for the past forty years and was respected by a large number of friends. He leaves to mourn his loss four sons, William, Thomas, Arthur and Patrick and three daughters, Mary, Lizzie and Thessa. The funeral will be held Wednesday morning at 9:15 from St. Patrick's church.

Caleb Snashall
The mortal remains of the late Caleb Snashall of Evansville were laid at rest in the Evansville cemetery Sunday. Mr. Snashall has been prominent in Evansville affairs for many years. He was one of the founders of the Baker Manufacturing Co. and at one time president of the town board. He was the architect of the new Baptist church which is being erected at Evansville at the present time.

Nellie Haire Levison
Nellie Haire Levison, wife of S. O. Levison, a well-known Chicago lawyer, died suddenly at her home in Chicago, on Tuesday, February 9, and was buried on Friday, February 12. Mrs. Levison will be remembered as Miss Nellie Haire, daughter of Professor and Mrs. John P. Haire.

Mrs. Bristol
Word has been received that Mrs. Bristol, the mother of Mrs. Chas. McEwen, died on Saturday last in Des Moines, Iowa.

DODGING THE JURY SERVICE

IS IT COMING TO BE A FINE ART IN JANESVILLE?

MARZLUFF CASE THIS MORNING

The Famous Dog Poisoning Trial on Which Former Jury Disagreed, Is Reopened.

Owing to the meagre stipend allowed to those who sit in the jury box of the municipal court there is little cheerfulness among those who are captured in the hustings and dragged into the city hall that the good of the commonwealth may be conserved. When the six who had been selected to try the Marzluff case this morning were examined it was found that four of them were either firm believers in the doctrine of dog poisoning or sympathized so enthusiastically with the plaintiff in the action that they were unable to render a fair verdict.

Jury Is Secured
Some little delay was occasioned by this wholesale propensity to natural endowments among those who had been selected as the proper judicial timber but he court in the end had to let them go. Bert Lincoln said he was in partnership with a brother of the owner of the dog and didn't believe he could turn down his business associate in a matter of this kind. Harry Brown said that he yearned to poison numerous dogs himself. Charles Curtis and L. Trulson were very much prejudiced. The final jury consisted of John Spoon, W. H. Merritt, A. W. Hall, J. L. Bear, George Davy and Harrison Smith.

New Trial Begins
The new trial began about 11 o'clock this morning. Mrs. Miller and the other witnesses for the prosecution were examined and it was expected that John Marzluff would go on the stand to testify in his own behalf this afternoon.

Not Guilty
4:30—Jury Brought in a verdict of not guilty.

MARRIED SISTERS IN MASON CITY

Two Janesville Telegraph Operators Steal Quietly Away on St. Valentine's Day—Wedded Today.

Two young men of the same craft working for rival railroads journeyed westward yesterday on the old, old mission that all good men undertake sooner or later. The good old saint must have smiled softly in appreciation. No paper valentines—those, C. H. Phillips, night operator at the interlocking tower, and John Evans, day operator at the Chicago & North-Western depot, were the men. They showed to the conductor mileage to Mason City, Iowa. And in that self-same city today they were married to two sisters—the Misses Peck, upon their return to Janesville they will reside in a single house at 116 North Academy street. The Gazette extends its best wishes.

McConnell-Kealley
This morning at Edgerton the Rev. Father Harlin performed the marriage ceremony that made Mr. William McConnell of La Prairie and Miss Alice Kealley of Fulton, husband and wife. The newly married couple will make their home in the town of La Prairie, where the groom has been a prosperous young farmer. The young lady has been employed as teacher in the Indian Ford school and has the respect of esteem of all who know her. Their many friends in Janesville extend the heartiest of congratulations to the newly married couple.

RETURNS AFTER LONG SOJOURN IN THE EAST

William Eldredge It Is Understood Has Received Large Bequest.

William M. Eldredge returned Saturday evening from a lengthy sojourn in the east dating from the first of last August. He has recently been visiting in the vicinity of Utica, N. Y., and it is understood that he received a bequest of considerable value by the will of an aunt who recently died in that locality. Mr. Eldredge was uncommunicative on the subject when interviewed. He said that there were two feet of snow in New York state when he left.

LAID IN LAST RESTING PLACE

Andrew Navock
Funeral services over the remains of the late Andrew Navock were held this morning from St. Patrick's church, Rev. James McGinnley officiating. The pallbearers were Edward Donahoe, Daniel J. Luby, John Connors and James Sheridan. The interment was at Mt. Olivet cemetery.

Will Wed Tomorrow: Mr. Percy Bolton, one of the popular clerks in the Bostwick & Sons' store left today for Fond du Lac where he will be married tomorrow. The bride to be is a young lady recently from England, Mr. Bolton's former home.

Try to Burn a "Witch."
Suspected of witchcraft, a Lisbon woman was seized by a frenzied rabble and thrown upon a pile of her furniture, which was then set on fire. Fortunately, the police intervened in time to save the woman's life.

Locusts Devour Flour.
During a recent locust plague in the tinnecaucous some truck loads of sacks of flour standing on a siding were devoured in about a quarter of an hour.

Berlin Fire Protection.
In order to prevent fires in the great Berlin warehouses it has been decided to provide each of them, at the owner's expense, with a permanent guard from the metropolitan fire brigade, under command of a chief fireman.

NEED PERMISSION TO EXECUTE DOGS

Ordinance Does Not Give Officers Full Powers—Jim McGinnley's Narrow Escape—Dog License Law.

Under the ordinance now on the city's books the officers have no authority to kill a vicious dog without the owner's permission unless they are on the ground when an attack is made. This, of course, seldom happens. J. W. Lloyd who was bitten on Glen street Saturday morning reported the matter to the police and demanded that they go directly and kill the animal. When they told him that they must first find the owner and secure permission, he was much dissatisfied and carried the matter to Mayor Wilson. The latter could do no more for him, but at the council meeting tonight a communication recommending some changes in the existing ordinance will be received.

Three Are Slain
The owner of the bull-dog, Mrs. Dora Hovland, readily gave permission to the officers to shoot the beast when she learned what it had done. Accompanied by William J. Conroy, Officer John Brown made a tour of the city Saturday afternoon and dispatched three of the animals against which complaints had been registered.

Jim McGinnley Jumps
The execution of Patrick McGinnley's canine came near resulting disastrously for Jim McGinnley who volunteered to hold the beast at arm's length in readiness for the fatal bullet. Just as Officer Brown pressed the trigger the dog, which had been standing quietly enough, gave a leap and nearly dragged his captor into range. So much so that the missile whizzed past one of Mr. McGinnley's legs and caused him to leap wildly towards the heavens shouting that he had been shot. This impression, on subsequent investigation, proved to be erroneous.

The License Question
The dog-license ordinance was last enforced when Officer Brown was sent commissioner. The licenses were collected by him during the period from December to March. The present ordinance would have been enforced now. As not a week has passed but what the officers are called upon to rid the city of several vicious or worthless canines. The matter of obtaining permission complicates things and delays the execution of justice. The license, if enforced, would eliminate at one time a large proportion of the objectionable beasts and greatly simplify matters.

LOCAL CHINESE OBSERVE FEAST

Of the New Year in a Quiet Fashion—Sweets—and Cigars at Lee Sing's.

Today is the feast day of the New Year for the Chinamen and there are pleasant greetings, Chinese sweets, and cigars at the laundry shop of Lee Sing & Co. 118 W. Milwaukee street. Moy Yek, one of the four celestial who form the company, has gone to Chicago and will participate in the big time on Clark street tonight. The others have laid aside their work and are quietly enjoying the day. At Lee Hong's on South River street a similar celebration is going on, there being two Chinamen there.

\$12 ladies' cloaks for \$1.
\$15 ladies' cloaks for \$5.
\$22.50 ladies' cloaks for \$7.50.
At our special clearing sale. T. P. Burns.
Attend our special sale of winter goods. T. P. Burns.

FINAL ACTION ON THAT FRANCHISE

If There is To Be Any, Is Expected at Meeting of Council-Tonight.

Dog Ordinance Will Be Up.
Considerable interest in manifest in the regular meeting of the city council this evening on account of the expected final action, if there is to be any, on the interurban franchise question. Mayor Wilson will not be present and Dr. Judd, president of the council, will preside. The petition against the freight clause circulated by Peter G. Strickler will doubtless be in evidence and advocates of its sentiments may be present to make things interesting. The treasurer's report and that of the board of education, as well as other routine business will come up for consideration and the dog-ordinance and garbage matters may be discussed at length.

Go to Milton: The first and second teams of the Y. M. C. A. basketball players will play two teams at Milton college tomorrow night.

THE Gas Range With Free Connections \$12.00

You can do with the gas range what you cannot do with other stoves.

NEW GAS LIGHT CO.,

HAD A HEAD END COLLISION

SWITCH ENGINE AND PASSENGER ENGINE MET IN YARDS.

DAMAGE TO FREIGHT CARS

Wrecking Crew Was Called Upon to Clear the Track—Trains Go by Way of Afton.

While the night switch engine on the Chicago & North-Western road was doing some switching in the south end of the yards this morning about 3:30 o'clock, a passenger engine, which had been on the main track, came along and owing to the dense fog and steam did not see the switching crew until the two engines met in a head-end collision.

Not Much Damage Done
When the two engines struck the journal on one of the freight cars was broken, being the only damage that resulted from the collision. The wrecking crew in charge of Superintendent George Rudd was called out to clear up the track, so that the morning passenger trains would not be delayed. The crew worked from 4 o'clock until 7 am morning before the track was entirely cleared. The morning train that arrives in Janesville at 4 o'clock had to go around by the way of Afton, as did also the regular train that arrives here at 6:30. On account of the bitter cold this morning the wrecking crew were badly handicapped in straightening out the cars, as several times the iron chains were snapped in two from the frost.

A. M. CLAPP ENTERS EMPLOY OF GAZETTE PRINTING CO.

Has Had Considerable Experience on Many Large Papers Throughout the Country.

A. M. Clapp, a newspaper man of experience, has entered the employ of the Gazette and will be in charge of the paper's local advertising department. Mr. Clapp has been connected with some of the large papers of the country and the business people of Janesville will find him an able, pleasant gentleman.

Pickles

and

Olives

Our trade in bulk pickles and olives has more than doubled this season. There are several reasons for it.

The quality we buy is exactly the same as is used by the best packers for their bottled goods. We keep them in big glass jars, covered with glass covers so that no dust or other matter can get in.

We see to it that they are always covered with clear new liquor, the formula of which we possess. This keeps them as they should be kept. They contain all the fresh crispness, all the spice and flavor that we all desire.

Mammoth Olives, pt.25c

DEDRICK BROS.

WILL RUSH ALL THE SPEAKERS TO

The Third District This Week—The Administration Is Kept Very Busy.

During this week will see Governor La Follette and his leading wheels of the Wisconsin administration machine all speaking in the Third congressional district in the labor of retiring Congressman J. W. Babcock as the representative of the Third district. During the last few days a change in the program has been made according to which the governor has changed the subjects of his Third district lectures from Hamlet, a literary and oratorical speech, to Representative Government, a purely political address. The original plan was for the governor to exert merely an indirect and sentimental force in the district against Mr. Babcock, by lecturing at various places in the district on the subject of Shakespeare's great tragedy, the Melancholy Dane, the plan being that the heat of the opposition to Congressman Babcock should attract naturally to the campaigning by the personal power of abstract oratory. This plan has been changed so that the governor is to take direct and immediate part in the attacks that are being made against the congressman. It is presumed that the change was determined upon because the necessities of the situation in the district demanded it. The administration forces are outwardly expressing the utmost confidence in the coming defeat of Mr. Babcock and on the other hand the friends of the congressman declare that the representative will be returned, at least nominated, for another term. It is acknowledged by all who are in a position to know and to give a fair opinion that the campaign is the fiercest and the most bitterly personal that has ever been waged in this state.

NEWS OF A PERSONAL NATURE

Mrs. William Horn is critically ill at her Park street home.
Harry Nowlan was a Chicago visitor today.
